Assiniboine Community College
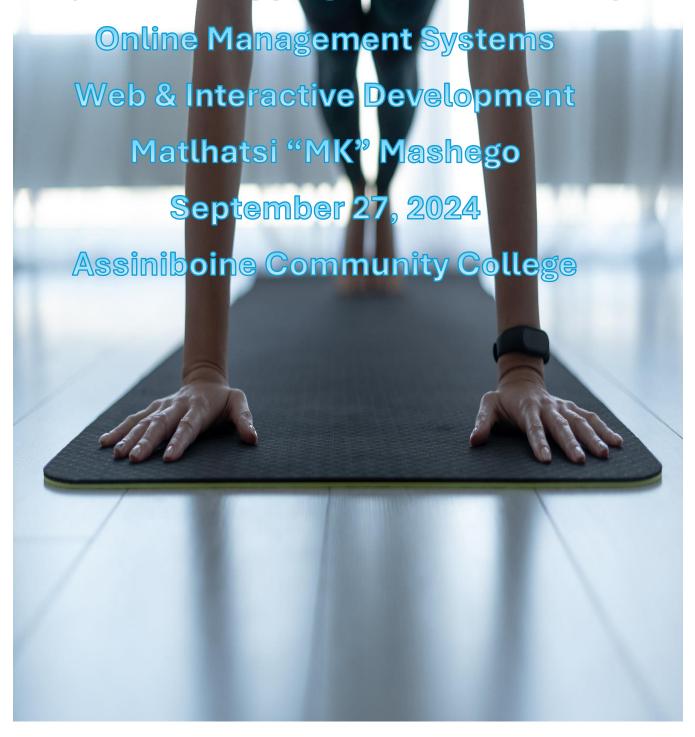

Reflection Summary

I found this first project very challenging and intimidating. This project was a real test of my problem-solving skills. I went to Christian and other colleagues for help. This 2nd year of Web & Interactive Development has me stressed and anxious. I stress trying to find a way to solve my problems so that I can pass these projects. I make more use of ChatGPT than I need to. I've learned debugging techniques, but I don't know if that's enough. I used Sean's code as a memo and tried to interpret to understand code organization. I used my spring break to practice and get better, I hope it's enough. My daily goal will be to free up as much time as I can to learn the concepts being taught and improve my coding. I've searched and found new platforms to be proactive and cope with my classes. I hope to adjust to the classes in time and pass this semester.

1 customers

Creation: Sep 27, 2024 at 11:09 AM

Column	Type	Attributes	Null	Default	Extra	Links to	Comments	MIME
customerID	int		No		auto_increment	-> orders.customerID ON UPDATE CASCADE ON DELETE RESTRICT		
firstname	varchar(255)		No					
lastname	varchar(255)		No					
email	varchar(100)		No					
address	varchar(100)		No					
phonenumber	varchar(100)		Yes	NULL				

3 order_details

Creation: Sep 16, 2024 at 03:21 PM

Column	Type	Attributes	Null	Default	Extra	Links to	Comments	MIME
product_id	int		No					
order_id	int		No					
quantity	int		No					
price_paid	int		No					

4 product

Creation: Sep 27, 2024 at 11:05 AM

Column	Type	Attributes	Null	Default	Extra	Links to	Comments	MIME
productid	int		No			-> order_details.product_id ON UPDATE CASCADE ON DELETE RESTRICT		
productprice	int		No					
producttype	varchar(65)		No					
productname	varchar(50)		No					
prodimg	varchar(255)		No					

Schema

ccm_mk product
- productid : int
- productprice : int
- producttype : varchar(65)
- productname : varchar(50)
- prodimg : varchar(255)

ccm_mk orders
- orderID : int
- dateofpurchase : datetime
- payment_method : varchar(200)
- customerID : int
- payment_amount : int

ccm_mk customers
- customerID : int
- firstname : varchar(255)
- lastname : varchar(255)
- email : varchar(100)
- address : varchar(100)
- phonenumber : varchar(100)

ccm_mk order_details
- product_id : int
- order_id : int
- quantity : int
- price_paid : int
